**CITY OF COCOA BEACH, FLORIDA**  
**GENERAL EMPLOYEES' PENSION BOARD**  
Quarterly Meeting Minutes  
**Thursday, May 21, 2026**

The meeting was called to order by Chairperson Hana Juman at 3:00 p.m.

**ROLL CALL**

**Members Present:**

Hana Juman, Chairperson  
Bill Collings  
Commissioner Williams  
Dennis Small  
Shirley Finke

**Members Absent:**

**PUBLIC IN ATTENDANCE:** Yes

**COMMENTS FROM THE CHAIR**

**PUBLIC COMMENT** – There was no public comment.

**CONSENT AGENDA**

1. Approval of minutes:
  - a. Quarterly Meeting Minutes February 19, 2026
2. Approval of expenses:
  - a. Burgess Chambers (1 invoice)
  - b. Foster & Foster (2 invoices)
3. Retirees (1)

**MOTION: Commissioner Williams**

"I move to accept the Consent Agenda as is, on next agenda would like to see the retirees named. "

**2<sup>nd</sup> Bill Collings**

**VOTE: 4-0 Approved**

**OLD BUSINESS – None**

**Quarterly Reports:** Sterling Capital Quarterly Report was presented by Blake Myton- Market capitalization weighting within the U.S. equities was additive, mainly due to an overweight to small caps. The Russell 2000 index returned +.89% in Q1 while the broad MSCI ACWI index declined by -2.75% Value vs Growth allocations within equity detracted the quarter. In U.S. large caps, the underweight value +1.36 return and overweight to growth -10.03% return had a negative effect on the benchmark performance. Blake does not think there will be any rate change by the Feds.  
Ending Market Value \$22,380,072. for QTD.

**CITY OF COCOA BEACH, FLORIDA**  
**GENERAL EMPLOYEES' PENSION BOARD**  
**Quarterly Meeting Minutes**  
**Thursday, May 21, 2026**

Portfolio Trailing Returns -1.35% OTD and fiscal YTD is -0.17%. The 1-year return rate is 10.33% with a benchmark of 11.41%.

Commissioner Williams asked the cash equivalent number is that where we draw the pension payments from? Blake answered yes.

Burgess Chambers and Associates (BCA) quarterly report was presented by Mitchel Brennan. The S&P 500 is being outpaced by GOOGLE, NVDA, and AMZN. The Growth category was -9.8% at the end of March and now has rebounded to +16.73%. The plan has a healthy top line and bottom line of companies. The best three performing assets categories for the 1-year period were convertibles +24.1%, Global Infrastructure +23.4%, and International Equity +23.2%. The total fund ROR for 3-year is +10.7%. The annualized ROR is +13.8%YTD. The ending Market Value is 37,003,898 QTD -0.3%.

Commissioner Williams asked What percent of the 6.2 million barrels of oil imports is domestic? Mitchel answered our refineries we send to others, but our total is 8% that we get from the Middle east. We can't refine our own oil? Mitchel responded we are not set up here, but other countries are. Energy in the U.S. is up 17.9% for consumers. Nextera is an energy company in the U. S. Mitchell believes we will see a rate hike before we see a reduced rate.

Salem Trust update was given by Inez Garcia-

The transition update has gone well. Once a month we do a retiree review of payouts. This plan has a good buffer in place and works with the Foster & Foster actuary. The yearly conference is coming up in June and Salem Trust will be there if you would like to meet the team.

Hana covered the legal representation change at the current firm and offered 3 options to the board. A discussion took place about the options.

**MOTION: Commissioner Williams**

"I move to stay with Sugarman and Susskind for legal representation"

**2<sup>nd</sup> Shirley Finke**

**Vote 4-0 Approved**

**BEING NO FURTHER BUSINESS** to come before the Board, the meeting was adjourned at 3:45p.m.

All reports and handouts are on file in the Finance Department.

7/31/26

Dear Clients,

On February 27, 2026, Pedro Herrera resigned from our firm. The Florida Bar rules require us to inform you that because Pedro Herrera was a firm lawyer with whom you had direct contact, you have the right to have our firm continue to represent you, in which case you will be represented by our team of experienced, public pension lawyers, led by Bob Sugarman, David Robinson, Jose Javier Rodriguez and Veronica Ucros. Also be assured that Paralegal/legal assistant, Jessica Vila, who has managed our municipal pension practice for 33 years, remains committed to our firm and will continue to serve you with her usual promptness, efficiency, and friendliness. We are ready, willing and able to continue to provide you with the same high level of expertise, devotion, and attention. You also have the right to retain Pedro Herrera or another law firm to represent you.

Our municipal pension lawyers together have over one hundred years of experience as pension attorneys. Bob, a University of Virginia law graduate, has been a leading Florida pension practitioner for more than 50 years. David Robinson earned his law degree at Georgetown University and has practiced public pension law with our firm for thirty years. Jose Javier, a Harvard Law grad, has worked in the public pension practice of our firm for several years, and has served as a member of the Florida House of Representatives, the Florida Senate, and most recently as the Assistant Secretary of the United State Department of Labor. Marcus Braswell, a graduate of FSU College of Law and who holds the distinction of Fellow of the College of Labor and Employment lawyers, has worked on municipal pension cases since 1999.

We understand that this is an important decision for you, and we are confident that should you make the decision to continue to have us serve as your lawyers, your expectations of receiving the highest quality of legal services will be fulfilled. For that reason, we are offering a reduction of 25% off our fees.

We hope that we will continue to serve as your lawyers. You can also choose to retain an entirely new lawyer, or have Pedro A. Herrera in his new capacity represent you as legal counsel.

The Florida Bar requires us to inform you that if you wish to have a new lawyer or Pedro A. Herrera continue to represent you, arrangements to settle your outstanding account, if any, with us will have to be made before the file can be released to the lawyer of your choosing. Any retained/unspent fees or costs currently held by the firm will be promptly returned. While you consider your decision, please be assured that continuity in your representation by our firm is assured.

You may indicate your choice below by returning a signed and dated copy via e-mail to [hsusskind@sugarmansusskind.com](mailto:hsusskind@sugarmansusskind.com) and [peterherrera@gmail.com](mailto:peterherrera@gmail.com). Please retain a copy of this designation letter for your records.

Sincerely,  
Howard Susskind  
Marcus Braswell  
Bob Sugarman  
David Robinson

Dear Clients,

On February 27, 2026, Pedro Herrera resigned from our firm. The Florida Bar rules require us to inform you that because Pedro Herrera was a firm lawyer with whom you had direct contact, you have the right to have our firm continue to represent you, in which case you will be represented by our team of experienced, public pension lawyers, led by Bob Sugarman, David Robinson, Jose Javier Rodriguez and Veronica Ucros. Also be assured that Paralegal/legal assistant, Jessica Vila, who has managed our municipal pension practice for 33 years, remains committed to our firm and will continue to serve you with her usual promptness, efficiency, and friendliness. We are ready, willing and able to continue to provide you with the same high level of expertise, devotion, and attention. You also have the right to retain Pedro Herrera or another law firm to represent you.

Our municipal pension lawyers together have over one hundred years of experience as pension attorneys. Bob, a University of Virginia law graduate, has been a leading Florida pension practitioner for more than 50 years. David Robinson earned his law degree at Georgetown University and has practiced public pension law with our firm for thirty years. Jose Javier, a Harvard Law grad, has worked in the public pension practice of our firm for several years, and has served as a member of the Florida House of Representatives, the Florida Senate, and most recently as the Assistant Secretary of the United State Department of Labor. Marcus Braswell, a graduate of FSU College of Law and who holds the distinction of Fellow of the College of Labor and Employment lawyers, has worked on municipal pension cases since 1999.

We understand that this is an important decision for you, and we are confident that should you make the decision to continue to have us serve as your lawyers, your expectations of receiving the highest quality of legal services will be fulfilled. For that reason, we are offering a reduction of 25% off our fees.

We hope that we will continue to serve as your lawyers. You can also choose to retain an entirely new lawyer, or have Pedro A. Herrera in his new capacity represent you as legal counsel.

The Florida Bar requires us to inform you that if you wish to have a new lawyer or Pedro A. Herrera continue to represent you, arrangements to settle your outstanding account, if any, with us will have to be made before the file can be released to the lawyer of your choosing. Any retained/unspent fees or costs currently held by the firm will be promptly returned. While you consider your decision, please be assured that continuity in your representation by our firm is assured.

You may indicate your choice below by returning a signed and dated copy via e-mail to [hsusskind@sugarmansusskind.com](mailto:hsusskind@sugarmansusskind.com) and [peterherrera@gmail.com](mailto:peterherrera@gmail.com). Please retain a copy of this designation letter for your records.

Sincerely,  
Howard Susskind  
Marcus Braswell  
Bob Sugarman  
David Robinson

### Fueling the AI Data Center Boom

#### July 2026

The rapid growth of artificial intelligence (AI) infrastructure and data centers is driving an unprecedented demand for electricity. Fossil fuels, specifically natural gas, have garnered attention as the most likely fuel source to help meet the growing power demand. It is abundant, inexpensive to produce, and easily transported through pipelines. While renewable energy has been eyed as the ultimate solution for the AI power demand, those sources are not as turn-key ready to deploy as natural gas, whose infrastructure is here now and equipped to handle the initial phases of additional capacity. Ultimately, if current projections for power demand continue to grow at exponential rates, both natural gas and renewables will be hard pressed to meet the anticipated need.

According to the International Energy Agency (IEA), global data centers may consume 945 terawatt-hours by 2030, doubling the current consumption per annum. Breakdown of electricity sources in the U.S. (U.S. Energy Information Agency):

| Energy Source       | Natural Gas | Wind & Solar | Nuclear    | Coal      | Hydro     |
|---------------------|-------------|--------------|------------|-----------|-----------|
| Output Share        | 41%         | 19%          | 18%        | 17%       | 6%        |
| Deployment Timeline | 2–5 years   | 1–5 years    | 8–15 years | 2–5 years | 5–8 years |

#### Nuclear vs. Natural Gas

Nuclear energy offers long-term advantages in reliability, stable costs, and zero carbon emissions. This has led tech giants like Alphabet, Amazon, Meta, and Microsoft to pivot toward nuclear energy to power their AI ambitions. However, with traditional nuclear build times averaging 8 to 15 years, natural gas remains the essential stopgap (<https://news.chemnet.com/>).

Existing natural gas pipeline companies are actively undergoing expansions to meet this surging demand. The Permian Basin in West Texas, alongside East Texas and Louisiana, features abundant gas reserves and the infrastructure required to support the massive AI growth. Conversely, while Pennsylvania and West Virginia sit on an abundance of gas, interstate pipeline constraints will severely limit near-term AI data center buildouts in the Northeast.

#### The Hyperscaler Spend Blitz

To secure this infrastructure, tech giants are executing extraordinary capital expenditure campaigns. Amazon boosted its 2026 capex to a staggering \$200 billion, predominantly dedicated to Amazon Web Services (AWS) data centers, marking the largest single-year capital spend by a hyperscaler technology company. Alphabet and Microsoft are also escalating their infrastructure spending, while Meta continues a multi-hundred-billion-dollar blitz through 2028. This capital is flooding into land, buildings, advanced chips, power systems, substations, and water-cooling infrastructure ([www.ciodive.com/](http://www.ciodive.com/)).

### Fueling the AI Data Center Boom

July 2026

#### Capex from the major AI hyperscalers\*

USD billions; Alphabet, Amazon, Meta, Microsoft, Oracle

Source: Bloomberg, J.P. Morgan Asset Management, "Guide to the Markets – 3Q 2026"

#### Massive Off-Grid Power Agreements

To bypass congested public grids, tech companies are partnering directly with energy providers for dedicated power:

- **Meta & Entergy:** In March 2026, plans were expanded for a massive Meta AI campus in Louisiana, with Entergy proposing a 10-plant, 7.5-gigawatt gas-fired network dedicated to the site (<https://thelensnola.org/>).
- **The Stargate Venture:** Formed by OpenAI, SoftBank, Oracle, and MGX, the multi-billion-dollar "Stargate" infrastructure initiative is building its flagship gigawatt-scale campus in Abilene, Texas, with further rollouts spanning New Mexico, Ohio, and Wisconsin. To power these sites independent of the public grid, the venture relies heavily on massive, localized natural gas agreements ([www.datacenterknowledge.com/](http://www.datacenterknowledge.com/)).
- **Microsoft & Chevron:** Chevron signed a 20-year contract to provide Permian Basin natural gas directly to a Microsoft data center in West Texas. Starting in 2028, on-site turbines will generate up to 2.67 gigawatts of off-grid electricity. Similarly, ExxonMobil and NextEra are forming partnerships to provide long-term power directly to large AI campuses (<https://www.latimes.com/>).

#### Summary

Recently, public backlash for announced data center projects puts the onus on both the hyperscalers and developers to secure sources of power that do not increase prices or strain the local grid, or else face the risk of cancellation. Natural gas appears to be the best interim solution to serve as the primary bridge for affordable electric power growth over the next five years. The data centers that successfully scale will be those that secure dedicated, low-cost, long-term electricity sources today.

1 Quarter Performance

US Market Indices Performance

US Market Sector Performance

### Fixed Income Market Sector Performance

### Intl Equity Indices Performance

### Intl Equity Region Performance

**Cocoa Beach General Employees' Pension Plan**  
**Total Fund**  
**Investment Summary**  
**June 30, 2026**

- ❑ For the quarter, the Plan was up \$3.3 million or +9.1% (9.0% net), slightly below the Strategic Model (+9.9%).
  - The best performing asset categories for the quarter were Convertibles (+20.1%), Small Cap Equity (+18.0%), and Large Cap Core Equity (+15.2%).
- ❑ For the fiscal year-to-date, the Plan earned \$3.7 million or +10.3% (+10.1% net), behind the Strategic Model (+12.5%).
  - The main reason for the underperformance for the year relative to the Strategic Model was the poor performance of the large cap value portfolio, specifically the Sterling Equity Income portfolio. That has been addressed with some changes to the large cap value portfolio last quarter. We will continue to monitor.
  - The best performing asset categories for the quarter were Small Cap Equity (+24.9%), Convertibles (+23.3%), and Mid Cap Equity (+17.8%).
- ❑ For the one-year period, the Plan earned \$5.4 million or +15.9% (+15.6% net), behind the Strategic Model (+18.8%).
  - The best three performing asset categories for the one-year period were Convertibles (+37.5%), Small Cap Equity (+35.3%), and International Equity (+23.5%).
- ❑ For the three and five-year periods, the Plan earned an average of +12.7% and +6.1% vs. +13.6% and +7.0% for the Strategic Model.
- ❑ In June, \$60,000 of existing cash was transferred from the Sterling Capital Management custody account to cover upcoming benefit payments and expenses.
- ❑ Update: In July 2026, \$220,000 of existing cash was transferred from the Sterling Capital Management custody account to cover upcoming benefit payments and expenses.
- ❑ Update: In August 2026, \$100,000 was raised from iShares Convertible Bond ETF to cover upcoming benefit payments and expenses.

## Glossary

### June 30, 2026

- ACCRUED INTEREST- Bond interest earned since the last interest payment, but not yet received.
- ALPHA- A linear regressive constant that measures expected return independent of Beta.
- ASSET ALLOCATION- The division of portfolio asset classes in order to achieve an expected investment objective.
- BALANCED UNIVERSES - Public Funds, Endowments & Foundations, Corporate peer groups, and PSN peer groups.
- BETA- A measure of portfolio sensitivity (volatility) in relation to the market, based upon past experience.
- BOND DURATION- A measure of portfolio sensitivity to interest rate risk.
- COMMINGLED FUND- An investment fund which is similar to a mutual fund in that investors are permitted to purchase and redeem units that represent ownership in a pool of securities.
- CONVERTIBLE BONDS - Hybrid securities' that offer equity returns during rising equity markets and improved down-market protection.
- CORE- An equal weighting in both growth and value stocks.
- CORRELATION COEFFICIENT- A measure of how two assets move together. The measure is bounded by +1 and -1; +1 means that the two assets move together positively, while a measure of -1 means that the assets are perfectly negatively correlated.
- GROWTH MANAGER- Generally invests in companies that have either experienced above-average growth rates and/or are expected to experience above-average growth rates in the future. Growth portfolios tend to have high price/earnings ratios and generally pay little to no dividends.
- INDEXES- Indexes are used as "independent representations of markets" (e.g., S&P 500).
- INFORMATION RATIO- Annualized excess return above the benchmark relative to the annualized tracking error.
- LARGE CAP- Generally, the term refers to a company that has a market capitalization that exceeds \$10 billion.
- MANAGER UNIVERSE- A collection of quarterly investment returns from various investment management firms that may be subdivided by style (e.g. growth, value, core).
- MID CAP- Generally, the term refers to a company that has a market capitalization between \$2 and \$10 billion.
- NCREIF - A quarterly time series composite total rate of return measure of investment performance of a large pool of individual commercial real estate properties acquired in the private market for investment purposes only.
- NCREIF ODCE - Open End Diversified Core Equity index which consists of historical and current returns from 26 open-end commingled funds pursuing core strategy. This index is capitalization weighted, time weighted and gross of fees.
- NET- Investment return accounts only for manager fees.
- PROTECTING FLORIDA INVESTMENT ACT (PFIA) - SBA publishes a list of prohibited investments (scrutinized companies).
- RATE OF RETURN- The percentage change in the value of an investment in a portfolio over a specified time period, excluding contributions.
- RISK MEASURES- Measures of the investment risk level, including beta, credit, duration, standard deviation, and others that are based on current and historical data.
- R-SQUARED- Measures how closely portfolio returns and those of the market are correlated, or how much variation in the portfolio returns may be explained by the market. An R2 of 40 means that 40% of the variation in a fund's price changes could be attributed to changes in the market index over the time period.

**Cocoa Beach General Employees Pension Plan**  
**Glossary**  
**June 30, 2026**

- SHARPE RATIO- The ratio of the rate of return earned above the risk-free rate to the standard deviation of the portfolio. It measures the number of units of return per unit of risk.
- SMALL CAP- Generally refers to a company with a market capitalization \$300 million to \$2 billion.
- STANDARD DEVIATION- Measure of the variability (dispersion) of historical returns around the mean. It measures how much exposure to volatility was experienced by the implementation of an investment strategy.
- SYSTEMATIC RISK- Measured by beta, it is the risk that cannot be diversified away (market risk).
- TIME WEIGHTED (TW) RETURN - A measure of the investments versus the investor. When there are no flows the TW & DOLLAR weighted (DW) returns are the same and vice versa.
- TRACKING ERROR- A measure of how closely a manager's performance tracks an index; it is the annualized standard deviation of the differences between the quarterly returns for the manager and the benchmark.
- TREYNOR RATIO- A measure of reward per unit of risk. (excess return divided by beta).
- UP AND DOWN-MARKET CAPTURE RATIO- Ratio that illustrates how a manager performed relative to the market during rising and declining market periods.
- VALUE MANAGER- Generally invests in companies that have low price-to-earnings and price-to-book ratios and/or above-average dividend yields.

**Cocoa Beach General Employees Pension Plan**  
**Disclosure**  
**June 30, 2026**

Advisory services are offered through or by Burgess Chambers and Associates, Inc., a registered SEC investment advisor.

**Performance Reporting:**

1. Changes in portfolio valuations due to capital gains or losses, dividends, interest, income and management fees are included in the calculation of returns. All calculations are made in accordance with generally accepted industry standards.
2. BCA complies with the Association for Investment Management and Research Performance Presentation Standards (AIMR-PPS). Returns are time-weighted rates of return (TWR).
3. Transaction costs, such as commissions, are included in the purchase cost or deducted from the proceeds or sale of a security. Differences in transaction costs may affect comparisons.
4. Individual client returns may vary due to a variety of factors, including differences in investment objectives, asset allocating and timing of investment decisions.
5. Performance reports are generated from information supplied by the client, custodian, and/or investment managers. BCA relies upon the accuracy of this data when preparing reports.
6. The market indexes do not include transaction costs, and an investment in a product similar to the index would have lower performance dependent upon costs, fees, dividend reinvestments, and timing. Benchmarks and indexes are for comparison purposes only, and there is no assurance or guarantee that such performance will be achieved.
7. Performance information prepared by third party sources may differ from that shown by BCA. These differences may be due to different methods of analysis, different time periods being evaluated, different pricing sources for securities, treatment of accrued income, treatment of cash, and different accounting procedures.
8. Certain valuations, such as alternative assets, ETF, and mutual funds, are prepared based on information from third party sources, the accuracy of such information cannot be guaranteed by BCA. Such data may include estimates and maybe subject to revision.
9. BCA relies on third party vendors to supply tax cost and market values, In the event that cost values are not available, market values may be used as a substitute.
10. BCA has not reviewed the risks of individual security holdings.
11. BCA investment reports are not indicative of future results.
12. Performance rankings are time sensitive and subject to change.
13. Mutual Fund (MF), Collective Investment Trusts (CIT) and Exchange Traded Funds (ETF) are ranked in net of fee universes.
14. Separately Managed Account (SMA) and Commingled Fund (CF) returns are ranked in gross of fees universes.
15. Composite returns are ranked in universes that encompass both gross and net of fee returns.
16. Total Fund returns are ranked in a gross of fee universe.
17. Private investments may include performance fees in addition to a management fee. For the purpose of BCA's calculations, net returns take in consideration both performance and management fees, but gross returns include management fees only.
18. Alternative investments, in contrast to traditional equity and fixed-income approaches, include private equity, private credit, private real estate, venture capital, and hedge funds. These investments are not marked to market which lowers volatility. Valuations are expected to be updated 45 to 120 days following quarter end. Please review the product's subscription documents for more detail.
19. For a free copy of Part II (mailed w/i 5 bus. days from request receipt) of Burgess Chambers & Associates, Inc.'s most recent Form ADV which details pertinent business procedures, please contact: 315 East Robinson Street Suite #690, Orlando, Florida 32801, 407-644-0111, [info@burgesschambers.com](mailto:info@burgesschambers.com).

Data is as of 06.30.2026. <sup>1</sup>SCM's preliminary "AUA" (Assets Under Advisement) differs from our regulatory "AUM" (Assets Under Management) for which we provide continuous and regular investment management services as disclosed in our ADV. AUA generally refers to non-discretionary assets for which SCM provides advice or consultation for which SCM does not have authority to effectuate transactions. Such services include model portfolios and assets SCM advises as an outsourced Chief Investment Officer on a non-discretionary basis. <sup>2</sup>The Chartered Financial Analyst® (CFA) charter is a graduate-level investment credential awarded by the CFA Institute, the largest global association of investment professionals. To earn the CFA charter, candidates must: 1) pass three sequential, six-hour examinations; 2) have at least four years of qualified professional investment experience; 3) join CFA Institute as members; and 4) commit to abide by, and annually reaffirm, their adherence to the CFA Institute Code of Ethics and Standards of Professional Conduct.

### Performance Attribution (2Q26)

- Asset allocation positioning detracted from benchmark-relative performance of the Advisory Solutions Balanced Portfolio in 2Q26.
- Market capitalization weighting within U.S. equities was additive, mainly due to an overweight to small caps. The Russell 2000® Index returned +21.49% in Q2 while the broad MSCI ACWI IMI Index increased +14.93%.
- Equity versus fixed income weightings detracted over the trailing three months. This can be attributed to an underweight to equity in early April prior to rebalancing. From April 1-9, 2026, the MSCI ACWI IMI Index (equity) returned +5.58% vs. +0.46% for Bloomberg U.S. Aggregate Bond Index (fixed income).
- Geographic weighting within equity detracted for the quarter, particularly an underweight to emerging markets. In Q2, emerging market equity returned +22.70% while the broad MSCI ACWI IMI Index posted a +14.93% return.

# Sterling Capital Advisory Solutions Monthly Update

July 2026

## Asset Allocation Update

- We recommend an underweight to global equities vs. fixed income.
- Within the equity allocation, we recommend an overweight to U.S. equities and an underweight to emerging market equities.
- Within the fixed income allocation, we recommend an overweight to U.S. TIPS.

## Equity Market Highlights

- Global equities, as defined by the MSCI ACWI IMI, fell 0.61% in June, with key developments during the month including a ceasefire agreement between the U.S. and Iran, the long-anticipated SpaceX initial public offering (IPO), and a somewhat hawkish tone from Federal Reserve (Fed) Chair Kevin Warsh during his first Federal Open Market Committee (FOMC) meeting. U.S. equities (Russell 3000® Index -0.31%) outperformed international markets (MSCI ACWI ex USA IMI -1.03%), and developed markets (MSCI World IMI -0.47%) outperformed emerging markets (MSCI EM IMI -1.60%). Value (MSCI ACWI Value Index -0.52%) outperformed growth (MSCI ACWI Growth Index -1.07%), and small caps (MSCI ACWI Small Cap Index +0.99%) outperformed large caps and mid caps (MSCI ACWI -0.80%). Health care was the top-performing sector in June, while communication services was the worst-performing sector.
- Active manager relative performance has been mixed year-to-date. Emerging markets and U.S. small cap value managers have outperformed on average, while U.S. large blend and U.S. mid cap growth managers have underperformed on average.
- On a rolling 5-year basis, U.S. growth outperformance relative to value fell in June. Although the gap between growth and value returns has closed in recent periods, rolling 5-year growth returns have consistently been ahead of value returns since 2017.

## Fixed Income Market Highlights

- The broad bond market, as represented by the Bloomberg U.S. Aggregate Bond Index, returned 0.24% in June, bringing its one-year return to 3.79%. For the month, of the Aggregate Index's largest components, U.S. Government securities (+0.28%) was the top performer, followed by Agency Mortgage-Backed Securities (MBS) (+0.22%) and U.S. Credit (+0.20%). Out-of-benchmark exposures to high yield and emerging market debt returned 0.27% and 0.56%, respectively.
- Overseas for the month of June, 10-year government bond yields of select countries were lower, with 10-year yields in Germany lower by 11 basis points (bps), Italy (lower by nine bps), the U.K. (lower by eight bps), and France (lower by four bps). Domestically, the yield on the 10-year Treasury was unchanged at 4.44% over the month.
- The Municipal/Treasury ratio moved lower in June, led by 2-year ratios which declined by nearly 4%. With June's decline, ratios are below its 5-year average.

## Summary Outlook

### Economic and Market Comments

The second quarter was marked by choppy but resilient risk markets, rising inflation, and shifting market expectations for Federal Reserve (Fed) policy. Although the Iran conflict remained unresolved and inflation remained high, global equity markets pushed nearly 15% higher in the second quarter. Similarly, fixed income securitized and credit market spreads tightened, with investment-grade corporate spreads dropping 15 basis points (bps) based on the Bloomberg U.S. Corporate Bond Index. With a backdrop of rising inflation and continued solid economic growth, Treasury yields moved higher and the market shifted towards pricing Fed rate hikes instead of cuts. Looking ahead, our forecasts for global equity returns have declined due to higher inflation, lower risk premium indicators, and less attractive valuations. Fixed income return expectations are little changed as the impact of higher Treasury yields is offset in our analytics by lower credit spreads. Given the decline in equity expectations relative to fixed income, we are transitioning from a neutral position to an underweight position in global equities vs. fixed income.

### Global Equity Positioning

We are reducing our overweight to U.S. equity segments following strong returns in the second quarter and the negative impacts of higher U.S. inflation. Within the U.S., our largest overweight is to large cap growth, which is supported by strong growth and profitability metrics. Small cap value remains attractive, but we have reduced our overweight as certain valuation metrics have reverted towards historical averages. We have shifted to an underweight to the mid cap growth segment on deteriorating trailing growth metrics. In international developed, we have moved from an underweight to overweight position following second quarter underperformance. Small cap remains our largest segment overweight within international developed. We remain underweight emerging markets as our composite measure of valuations is near a 20-year low.

### Fixed Income Positioning

We are modestly increasing our allocation to U.S. TIPS following a small drop in breakeven inflation rates in the second quarter. Our outlook is less favorable on riskier credit segments as credit spreads are historically tight.

### Global Equity Allocation Summary as of 07.09.2026

|                                | Total Allocation | Net of Benchmark Allocation | Change from Prior Quarter | Model Forecast | Summary of Allocations and Model Forecasts                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|--------------------------------|------------------|-----------------------------|---------------------------|----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <u>U.S. Equities</u>           | 64.20%           | 1.50%                       | -1.00%                    |                | <b>Overall Overweight; Overweight Large Cap Growth and Small Cap Value; Underweight Large Cap Value and Mid Cap Growth:</b> We have reduced our overweight to the U.S. as expected returns exceed those of international developed by a narrower margin following international developed underperformance in the second quarter. Within the U.S., large cap growth continues to show strong growth and profitability metrics. We have moved from an overweight to an underweight position in mid cap growth due to deterioration in trailing growth metrics, partly driven by the recent reconstitution of the Russell Indices. We have reduced our underweight to mid cap value following improvements in relative book-to-market and sales-to-firm value metrics. Small cap value's relative book-to-market ratios remain attractive, but other relative value metrics are now close to historical averages. |
| Large Cap Value                | 21.90%           | -0.75%                      | 0.00%                     |                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Large Cap Growth               | 27.70%           | 2.25%                       | 0.25%                     |                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Mid Cap Value                  | 8.40%            | -0.50%                      | 0.75%                     |                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Mid Cap Growth                 | 1.80%            | -1.25%                      | -1.75%                    |                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Small Cap Value                | 2.80%            | 1.50%                       | -0.50%                    |                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Small Cap Growth               | 1.60%            | 0.25%                       | 0.25%                     |                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| <u>International Developed</u> | 25.70%           | 0.50%                       | 1.00%                     |                | <b>Overweight:</b> We have transitioned to an overweight position as return expectations have improved relative to the U.S. following underperformance in the second quarter. Relative yield curve metrics now contribute positively to expected returns as European government yield curves steepened relative to the U.S. in the second quarter. Small cap remains the most attractive segment, in part due to the high relative sales-to-firm value ratio in Europe. We remain underweight to the growth segment as valuation metrics in the Pacific region are a drag on the forecast.                                                                                                                                                                                                                                                                                                                      |
| Value                          | 11.20%           | 0.25%                       | 0.50%                     |                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

| <u>Emerging Markets</u>        | 10.10%           | -2.00%                      | 0.00%                     |                | <b>Underweight:</b> Despite positive trailing return momentum, emerging market return expectations remain well below those of developed markets as gross income yield, dividend yield, and dividend growth metrics sit below historical averages.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

Model Forecast Graphs display forecasted Sharpe Ratios for each sector within a range of -1.5 to 1.5. Net of Benchmark weights calculated as of 07.09.2026. Net weights will change over time due to differences in index and portfolio returns and other factors. Forecasted returns generated by Sterling Capital Advisory Solutions' analytics contain a high degree of uncertainty, are hypothetical in nature, do not reflect actual investment results, and are not guarantees of future results. Actual results may vary widely from projections and may not account for extreme negative scenarios that are not well represented by model estimation samples. All investing is subject to risk, including possible loss of principal.

For illustrative purposes only. The views expressed represent the opinions of Sterling Capital Management. Any type of investing involves risk and there are no guarantees that these methods will be successful. Past performance does not guarantee future results.

<sup>1</sup>Model forecasts in this section are based on expected risk and return after controlling for and excluding the expected impact of changes in U.S. Treasury Yields on returns. U.S. Treasury Yield exposure (Duration) is measured and managed at the portfolio level and thus, excluded from consideration at the individual asset class level. The U.S. Government Bond asset classes can be utilized to manage duration to target levels.

<sup>2</sup>The Total U.S. Aggregate Fixed Income model forecast is inclusive of the expected impact of changes in U.S. Treasury Yields on returns.

Model Forecast Graphs display forecasted Sharpe Ratios for each sector within a range of -1.5 to 1.5. Net of Benchmark weights calculated as of 07.09.2026. Net weights will change over time due to differences in index and portfolio returns and other factors. Forecasted returns generated by Sterling Capital Advisory Solutions' analytics contain a high degree of uncertainty, are hypothetical in nature, do not reflect actual investment results, and are not guarantees of future results. Actual results may vary widely from projections and may not account for extreme negative scenarios that are not well represented by model estimation samples. All investing is subject to risk, including possible loss of principal.

# Global Economic Snapshot

YOY Real GDP Growth (\$U.S.)

U.S., Japan, and Eurozone data is as of 03.31.2026. Source: FactSet.

YoY U.S. Industrial Production and Productivity

Industrial Production as of 05.31.2026. Industrial Productivity data as of 03.31.2026. Source: FactSet.

Core Consumer Price Index (YoY Growth)

U.S. & Eurozone data is as of 06.30.2026. Japan data is as of 05.31.2026. Source: FactSet. The sudden increase in Japan CPI growth in 2014 coincided with an increase in national sales tax that impacted final price levels.

U.S. - Unemployment Rate

Data is as of 06.30.2026. Source: FactSet.

- Updated estimates of first quarter U.S. growth took year-over-year estimated gross domestic product (GDP) growth to 2.7%. Growth in Europe and Japan, however, has recently moved lower to well below 1%.
- The U.S. unemployment rate ticked down to 4.2% in June despite weaker-than-expected growth in nonfarm payrolls.
- Core inflation was lower than expected in June, bringing year-over-year U.S. core inflation down to 2.8%.
- Year-over-year U.S. industrial production growth increased to 1.7% in May, turning higher after a dip in the first quarter. Year-over-year U.S. labor productivity growth increased to 2.8% in the first quarter, an increase of 0.3% over the prior quarter.

# Global Equity Markets

## Equity Market Performance

Data is as of 06.30.2026. Sources: Morningstar; Russell Investments.

## Active vs. Passive

Data is as of 06.30.2026. Sources: Morningstar, Russell Investments. Median return of Morningstar open-end fund category (institutional share class). Russell return of U.S. categories.

## Rolling 5-Year Return Differential Russell 3000 Growth minus Russell 3000 Value

Data is as of 06.30.2026. Source: Morningstar.

- Global equities, as defined by the MSCI ACWI IMI, fell 0.61% in June, with key developments during the month including a ceasefire agreement between the U.S. and Iran, the long-anticipated SpaceX initial public offering (IPO), and a somewhat hawkish tone from Federal Reserve (Fed) Chair Kevin Warsh during his first Federal Open Market Committee (FOMC) meeting. U.S. equities (Russell 3000® Index -0.31%) outperformed international markets (MSCI ACWI ex USA IMI -1.03%), and developed markets (MSCI World IMI -0.47%) outperformed emerging markets (MSCI EM IMI -1.60%). Value (MSCI ACWI Value Index -0.52%) outperformed growth (MSCI ACWI Growth Index -1.07%), and small caps (MSCI ACWI Small Cap Index +0.99%) outperformed large caps and mid caps (MSCI ACWI -0.80%). Health care was the top-performing sector in June, while communication services was the worst-performing sector.

- Active manager relative performance has been mixed year-to-date. Emerging markets and U.S. small cap value managers have outperformed on average, while U.S. large blend and U.S. mid cap growth managers have underperformed on average.

- On a rolling 5-year basis, U.S. growth outperformance relative to value fell in June. Although the gap between growth and value returns has closed in recent periods, rolling 5-year growth returns have consistently been ahead of value returns since 2017.

## Bond Market Performance

Data is as of 06.30.2026. Sources: Morningstar; Bloomberg L.P.

## 10-Year Government Bond Yields

Data is as of 06.30.2026. Sources: FactSet; U.S. Department of Treasury.

## Municipal/Treasury Yield Ratios Over The Last Five Years

Data is as of 06.30.2026. Sources: Thompson Reuters; Sterling Capital Management Analytics.

- The broad bond market, as represented by the Bloomberg U.S. Aggregate Bond Index, returned 0.24% in June, bringing its one-year return to 3.79%. For the month, of the Aggregate Index's largest components, U.S. Government securities (+0.28%) was the top performer, followed by Agency Mortgage-Backed Securities (MBS) (+0.22%) and U.S. Credit (+0.20%). Out-of-benchmark exposures to high yield and emerging market debt returned 0.27% and 0.56%, respectively.

- Overseas for the month of June, 10-year government bond yields of select countries were lower, with 10-year yields in Germany lower by 11 basis points (bps), Italy (lower by nine bps), the U.K. (lower by eight bps), and France (lower by four bps). Domestically, the yield on the 10-year Treasury was unchanged at 4.44% over the month.

- The Municipal/Treasury ratio moved lower in June, led by 2-year ratios which declined by nearly 4%. With June's decline, ratios are below its 5-year average.

Data is as of 06.30.2026. Source: Bloomberg L.P.

Data is as of 06.30.2026. Source: Bloomberg L.P.

- Investment-grade and high yield credit spreads moved mildly higher in June but are well below long-run averages.
- 10-year TIPS breakeven rates moved lower in June as inflation began to show signs of moderation. Breakeven inflation rates are near their long-term average.
- Emerging market debt credit spreads moved mildly lower again in June, further below the historical average. The yield spread of U.S. to global Treasuries moved further above the long-term average.

Any type of investing involves risk and there are no guarantees that these methods will be successful. Past performance is no guarantee of future results.

# U.S. Treasury Yield Curve

- Month-over-month, the yield curve moved mostly higher, with front-end rates seeing the largest increase. Yields between six months and two years saw the largest increase by 15 bps or more. The only tenors to decline over the month were 20- and 30-year maturities which declined by at least five bps. The yield on the 10-year Treasury had intra-month volatility but ended the month where it began at 4.44%.

Data is as of 06.30.2026. Source: FactSet. For illustrative purposes only. The views expressed represent the opinions of Sterling Capital Management. Any type of investing involves risk and there are no guarantees that these methods will be successful. Past performance is no guarantee of future results. Yields are subject to market conditions and are therefore expected to fluctuate.

# Global Equity Market Fundamentals and Indicators

**U.S. Cyclically-Adjusted Earnings Yield**

Data is as of 06.30.2026. Sources: Bloomberg L.P.; Robert Shiller "U.S. Stock Markets 1871 - Present and CAPE Ratio."

**VIX Index**

Data is as of 06.30.2026. Sources: FactSet; Russell; Bureau of Labor Statistics; Sterling Capital Management Analytics.

**Revenue to Firm Value**

Data is as of 06.30.2026. Sources: FactSet; Russell; MSCI.

**Dividend Yield**

Data is as of 06.30.2026. Sources: FactSet; Russell; MSCI.

- The U.S. cyclically-adjusted earnings yield was little changed in June and remains low relative to history.
- Dividend and sales yields remain low across equity markets. U.S. yields remain lower than international markets, but emerging market yields have declined significantly in recent months.
- The CBOE Volatility Index (VIX), a measure of market-expected equity volatility, increased slightly in June but remains below the 20-year historical median. Lower VIX levels may be indicative of lower equity risk premiums.

**Sterling Capital Management LLC****Disclaimer**

Sterling Capital Management LLC ("Sterling") is an investment advisor registered with the Securities and Exchange Commission under the Investment Advisors Act of 1940. The firm provides investment management services to institutional and individual investors.

The contents of this report are provided solely for the use of the intended recipient(s) for informational purposes only, and may contain information that is privileged, confidential or proprietary. If you are not an intended recipient, then please delete and destroy all copies of this information, and be advised that any review or dissemination of, or undertaking of any action in reliance on, the information contained in this report is prohibited.

This information does not constitute legal, tax or investment advice and is not intended as an offer to sell or a solicitation to buy securities or investment products.

This information has been obtained from sources believed to be reliable, but Sterling does not guarantee the accuracy or completeness of such information.

Past performance may not be indicative of future results. Gross-of-fee returns are calculated net of transaction costs and gross of management fees. A client's returns will be reduced by Sterling's advisory fee and other expenses incurred in the management of the account. Net-of-fee returns are calculated net of transactions costs and net of management fees.

Unless otherwise instructed, Sterling presents client statements on a trade date basis, which may differ from your custodian.

The historical index performance results for all historical benchmark indices do not reflect the deduction of transaction and custodial charges, or the deduction of an investment manager fee, the incurrence of which would have the effect of decreasing indicated historical performance results. The historical performance results for all indices are provided exclusively for comparison purposes only so as to provide general comparative information to assist an individual client or prospective client in determining whether Sterling's performance meets, or continues to meet, the client's investment objective(s). Comparative indices may be more or less volatile than Sterling portfolios.

In order to verify that all account transactions are proper, we urge you to compare the information provided within this report with the statement you received directly from your custodian. If there are any inconsistencies between this information and your custodian account statement, you should rely on the information contained in the custodial statement.

SCM does not provide tax or legal advice. You should consult with your individual tax or legal professional before taking any action that may have tax or legal implications.

**Core Consumer Price Index (CPI):** a measure of the aggregate price level in an economy, excluding certain volatile items.

**Consumer Confidence Index (CCI):** measures what consumers are feeling about their expected financial situation, whether that's optimistic or pessimistic.

**Option Adjusted Spread (OAS):** A bond's yield spread over comparable maturity government bonds, adjusted for any embedded options.

**Real Disposable Personal Income:** the amount of money that an individual or household has to spend or save after federal, state, and local taxes and other mandatory charges are deducted.

**Real GDP:** Real gross domestic product (GDP) is an inflation-adjusted measure that reflects the value of all goods and services produced by an economy in a given year, expressed in base-year prices.

**Nonfarm payroll** refers to the number of jobs in the private sector and government agencies. It excludes farm workers, private household employees, proprietors, non-profit employees, and actively serving military.

**Revenue-to-Firm Value:** Total Index Revenues of the past 12 months divided by the sum of equity market value and the value of total debt. This is a measure of total sales generated on the total value (debt plus equity) of firms in the index.

**TIPS Breakeven:** The inflation rate implied by the spread in yield between U.S. TIPS (Treasury Inflation Protected Securities) and nominal U.S. Government Bonds of equal maturity.

**U.S. 3-Year Real Revenue Growth, Russell 3000 Non-Financials:** For the Russell 3000 excluding financial firms, the percentage change in trailing 12-month inflation adjusted revenue over 12-month inflation adjusted revenue three years prior.

**U.S. Cyclically Adjusted Earnings Yield:** The 10-year average of annual, inflation adjusted earnings divided by the current inflation adjusted price of the S&P 500 index. This measure is the inverse of the Shiller CAPE Ratio.

**YOY U.S. Productivity Growth:** The year-over-year growth in real U.S. output produced per hour worked for non-farm workers.

**CAPE Ratio:** is a valuation measure that uses real earnings per share (EPS) over a 10-year period to smooth out fluctuations in corporate profits that occur over different periods of a business cycle.

**Dividend Risk:** refers to the risk of a stock's dividend being cut or eliminated, or to the risk to an option when a dividend is paid.

**Dividend Yields:** is a financial ratio that shows how much a company pays out in dividends each year relative to its stock price.

**Eurozone:** consists of those Member States of the European Union that have adopted the euro as their currency.

**Municipal Yield:** the annual return an investor receives on a municipal bond. It's calculated based on the bond's purchase price, coupon rate, and how long the investor holds the bond.

**Treasury Yield:** the interest rate the U.S. government pays on its debt securities, expressed as a percentage. It's also the annual return investors earn from holding a U.S. government security.

**Capitalization/Style Returns:** Capitalization/Style returns are based on the S&P Indexes. All values are cumulative total return for stated period including the reinvestment of dividends. The indexes used from left to right, top to bottom are as follows: S&P 500 Value Index, S&P 500 Index, S&P 500 Growth Index, S&P Mid Cap 400 Value Index, S&P Mid Cap 400 Index, S&P Mid Cap 400 Growth Index, S&P Small Cap 600 Value Index, S&P Small Cap 600 Index, S&P Small Cap 600 Growth Index. The S&P 500® Index is a readily available, carefully constructed, market-value-weighted benchmark of common stock performance. Currently, the S&P® Composite includes 500 of the largest stocks (in terms of stock market value) in the United States; prior to March 1957 it consisted of 90 of the largest stocks. The S&P Midcap 400 is designed to measure the performance of the middle capitalization sector of the U.S. equities market. This market capitalization weighted index was created in June of 1991 and consists of 400 domestic stocks from the NYSE, NASDAQ, and AMEX chosen for market size, liquidity and industry group representation. The S&P SmallCap 600 is designed to measure the performance of the small capitalization sector of the U.S. equities market. This index consists of 600 domestic stocks chosen for market size, liquidity, (bid-asked spread, ownership, share turnover and number of no trade days) and industry group representation. The S&P Style indices measure growth and value along two separate dimensions, with three factors each used to measure growth and value. The Growth factors are 3 Year Change in Earnings per Share over Price per Share, 3 Year Sales per Share Growth Rate, and Momentum. The Value factors are Book Value to price Ratio, Earnings to Price Ratio, and Sales to Price Ratio.

## Index Definitions & Disclosures

**Past performance is not indicative of future results. Any type of investing involves risk and there are no guarantees that these methods will be successful. Economic charts are provided for illustrative purposes only. The information provided herein is subject to market conditions and is therefore expected to fluctuate.**

**Model Assumptions:** Assumptions, opinions and estimates are provided for illustrative purposes only. They should not be relied upon as recommendations to buy or sell securities. Forecasts of financial market trends that are based on current market conditions constitute our judgment and are subject to change without notice. We believe the information provided here is reliable, but do not warrant its accuracy or completeness. Expected return estimates are subject to uncertainty and error. Expected returns for each asset class can be conditional on economic scenarios; in the event a particular scenario comes to pass, actual returns could be significantly higher or lower than forecasted. This information is not intended as a recommendation to invest in any particular asset class or strategy or product or as a promise of future performance. Note that these asset class assumptions are passive, and do not consider the impact of active management.

**A Note on Indices:** The volatility of an index varies greatly; all indices are unmanaged and investments cannot be made directly in an index. Indices are shown for illustrative purposes only and do not represent the performance of any specific investment. The indices selected by Sterling Capital Management to measure performance are representative of broad asset classes. Sterling Capital Management retains the right to change representative indices at any time.

**The volatility of an index varies greatly. All indices are unmanaged and investments cannot be made directly in an index.**

The **Bloomberg Emerging Markets Hard Currency Aggregate Index** is a flagship hard currency Emerging Markets debt benchmark that includes USD-denominated debt from sovereign, quasi-sovereign, and corporate EM issuers.

The **Bloomberg Global Treasury Ex U.S. Hedged Index** is comprised of securities issued by developed ex. U.S. and emerging market governments. The index is hedged against constituent currencies versus the U.S. dollar.

The **Bloomberg Global Treasury ex U.S. Index** is a subset of the flagship Global Treasury Index that does not have any exposure to US debt. This multi-currency benchmark includes investment grade, fixed-rate bonds issued by governments in their native currencies.

The **Bloomberg Global Treasury Index** is a broad benchmark that tracks the performance of fixed-rate, local currency government debt of investment-grade countries, including both developed and emerging markets, excluding the United States. It's essentially the treasury sector of the Global Aggregate Index.

The **Bloomberg U.S. Aggregate Bond Index** is an unmanaged index composed of securities that are SEC-registered, taxable, and dollar denominated. The index covers the U.S. investment grade fixed rate bond market, with index components for government and corporate securities, mortgage pass-through securities, and asset-backed securities. It is not possible to invest in the Bloomberg U.S. Aggregate Bond Index, which is unmanaged and does not incur fees and charges.

The **Bloomberg U.S. Corporate High Yield Index** measures the U.S. corporate market of non-investment grade, fixed-rate corporate bonds. Securities are classified as high yield if the middle rating of Moody's, Fitch, and S&P is Ba1/BB+/BB+ or below.

The **Bloomberg U.S. Credit Index** measures the investment grade, U.S. dollar-denominated, fixed-rate, taxable corporate and government related bond markets. It is composed of the U.S. Corporate Index and a non-corporate component that includes foreign agencies, sovereigns, supnationals and local authorities.

The **Bloomberg U.S. Government Index** is comprised of securities issued by the U.S. government and its agencies with at least one year until final maturity.

The **Bloomberg U.S. Treasury Inflation-Linked Bond Index (Series-L)** measures the performance of the U.S. Treasury Inflation Protected Securities (TIPS) market. Federal Reserve holdings of U.S. TIPS are not index eligible and are excluded from the face amount outstanding of each bond in the index.

**Bloomberg L.P.:** "Bloomberg®" and the Bloomberg indices are service marks of Bloomberg Finance L.P. and its affiliates, including Bloomberg Index Services Limited ("BISL"), the administrator of the index (collectively, "Bloomberg") and have been licensed for use for certain purposes by Sterling Capital Management LLC and its affiliates. Bloomberg is not affiliated with Sterling Capital Management LLC or its affiliates, and Bloomberg does not approve, endorse, review, or recommend the product(s) presented herein. Bloomberg does not guarantee the timeliness, accurateness, or completeness of any data or information relating to the product(s) presented herein.

The **Bloomberg U.S. TIPS Index** includes all publicly issued, U.S. Treasury inflation-protected securities that have at least one year remaining to maturity, are rated investment grade, and have \$250 million or more of outstanding face value.

The **Bloomberg Emerging Markets Aggregate Index** measures the performance of hard currency Emerging Markets (EM) debt, including fixed and floating-rate U.S. dollar-denominated debt issued from sovereign, quasi-sovereign, and corporate EM issuers.

The **Bloomberg U.S. MBS Index** covers the mortgage-backed pass-through securities of Ginnie Mae (GNMA), Fannie Mae (FNMA), and Freddie Mac (FHLMC). It is formed by grouping the universe of individual fixed rate MBS pools into generic aggregates.

The **Bloomberg Commodity Index** and related sub-indices are composed of futures contracts on physical commodities and represents 22 separate commodities traded on U.S. exchanges, with the exception of aluminum, nickel and zinc.

## Index Definitions & Disclosures

**A Note on Indices:** The volatility of an index varies greatly; all indices are unmanaged and investments cannot be made directly in an index. Indices are shown for illustrative purposes only and do not represent the performance of any specific investment. The indices selected by Sterling Capital Management to measure performance are representative of broad asset classes. Sterling Capital Management retains the right to change representative indices at any time.

**The CBOE VIX Index** is a calculation designed to produce a measure of constant, 30-day expected volatility of the U.S. stock market, derived from real-time, mid-quote prices of S&P 500® Index (SPX<sup>SM</sup>) call and put options.

The **Consumer Confidence Index (CCI)** is a monthly report that measures how confident consumers are about the economy and their finances. It's based on surveys of a representative group of households.

The **Dow Jones Equity All REIT Index** is designed to measure all publicly traded real estate investment trusts in the Dow Jones U.S. stock universe classified as equity REITs according to the S&P Dow Jones Indices REIT Industry Classification Hierarchy. These companies are REITs that primarily own and operate income-producing real estate.

The **ICE U.S. Dollar Index** is calculated in real time approximately every 15 seconds from a multi-contributor feed of the spot prices of the Index's component currencies.

The **ISM Manufacturing Index** is a monthly indicator of U.S. economic activity based on a survey of purchasing managers at manufacturing firms nationwide.

The **ISM Manufacturing New Orders Index** is a key sub-index within the ISM Manufacturing Purchasing Managers' Index (PMI) that measures the month-over-month change in new purchase orders received by manufacturing firms.

The **ISM Non-Manufacturing Index** is an index that measures the economic condition and performance of service-based companies.

The **MSCI ACWI Investable Market Index (IMI) Index** captures large, mid and small cap representation across 23 Developed Markets (DM) and 26 Emerging Markets (EM) countries. With 8,768 constituents, the index is comprehensive, covering approximately 99% of the global equity investment opportunity set. DM countries include: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, the U.K. and the U.S. EM countries include: Argentina, Brazil, Chile, China, Colombia, Czech Republic, Egypt, Greece, Hungary, India, Indonesia, Korea, Malaysia, Mexico, Pakistan, Peru, Philippines, Poland, Qatar, Russia, Saudi Arabia, South Africa, Taiwan, Thailand, Turkey and United Arab Emirates.

The **MSCI World Investable Market Index (IMI)** is a comprehensive global stock market index that represents large, mid, and small-cap stocks across 23 developed market countries. It captures approximately 99% of the free-float adjusted market capitalization in each country.

The **MSCI Emerging Markets Investable Market Index (IMI) Index** captures large, mid and small cap representation across 24 Emerging Markets (EM) countries. With 3,415 constituents, the index covers approximately 99% of the free float-adjusted market capitalization in each country.

The **MSCI Emerging Markets Index** is a free float-adjusted market capitalization index that is designed to measure equity market performance in the global emerging markets.

The **MSCI Worldex USA Investable Market Index (IMI) Index** captures large, mid and small cap representation across 22 of 23 Developed Markets (DM) countries excluding the United States. With 3,540 constituents, the index covers approximately 99% of the free float-adjusted market capitalization in each country.

The **MSCI World ex USA Large Cap Index** captures large cap representation across 22 of 23 Developed Markets (DM) countries excluding the United States. With 411 constituents, the index covers approximately 70% of the free float-adjusted market capitalization in each country.

The **MSCI World ex USA Small Cap Index** captures small cap representation across 22 of 23 Developed Markets (DM) countries (excluding the United States). With 2,529 constituents, the index covers approximately 14% of the free float-adjusted market capitalization in each country.

The **MSCI Worldex USA Value Index** captures large and mid cap securities exhibiting overall value style characteristics across 22 of 23 Developed Markets countries.

The **MSCI Worldex USA Growth Index** captures large and mid cap securities exhibiting overall growth style characteristics across Developed Markets (DM) countries excluding the United States.

The **MSCI Emerging Markets Value Index** captures large and mid cap securities exhibiting overall value style characteristics across 26 Emerging Markets (EM) countries. The value investment style characteristics for index construction are defined using three variables: book value to price, 12-month forward earnings to price and dividend yield.

The **MSCI ACWI Value Index** captures large and mid cap securities exhibiting overall value style characteristics across 23 Developed Markets countries and 24 Emerging Markets (EM) countries. The value investment style characteristics for index construction are defined using three variables: book value to price, 12-month forward earnings to price and dividend yield.

The **MSCI ACWI Growth Index** captures large and mid cap securities exhibiting overall growth style characteristics across 23 Developed Markets (DM) countries and 24 Emerging Markets (EM) countries. The growth investment style characteristics for index construction are defined using five variables: long-term forward EPS growth rate, short-term forward EPS growth rate, current internal growth rate and long-term historical EPS growth trend and long-term historical sales per share growth trend.

The **MSCI ACWI ex USA Growth Index** captures large and mid cap securities exhibiting overall growth style characteristics across 22 Developed Markets (DM) countries and 26 Emerging Markets (EM) countries.

The **MSCI ACWI ex USA IMI Index** is a global equity index that tracks the performance of large, mid, and small-cap companies in developed and emerging markets outside the United States. It aims to capture approximately 99% of the global equity investment opportunity set excluding US equities, according to MSCI.

The **MSCI ACWI Small Cap Index** captures small cap representation across 22 of 23 Developed Markets (DM) countries (excluding the US) and 24 Emerging Markets (EM) countries. With 4,372 constituents, the index covers approximately 14% of the global equity opportunity set outside the US.

The **MSCI ACWI Large Cap Index** captures large cap representation across 22 of 23 Developed Markets (DM) countries (excluding the US) and 24 Emerging Markets (EM) countries. With 982 constituents, the index covers approximately 70% of the free float-adjusted market capitalization in each country.

The **MSCI ACWI Mid Cap Index** captures mid cap representation across 22 Developed Markets (DM) and 24 Emerging Markets (EM) countries. With 1,280 constituents, the index covers approximately 15% of the free float-adjusted market capitalization in each country.

The **MSCI EAFE Index** is a free float-adjusted market capitalization index that is designed to measure the equity market performance of developed markets, excluding the U.S. and Canada.

The **MSCI Emerging Markets Growth Index** captures large and mid cap securities exhibiting overall growth style characteristics across 26 Emerging Markets (EM) countries. The growth investment style characteristics for index construction are defined using five variables: long-term forward EPS growth rate, short-term forward EPS growth rate, current internal growth rate and long-term historical EPS growth trend and long-term historical sales per share growth trend.

The **MSCI Emerging Markets Investable Market Index (IMI)** is a stock market index that measures the performance of large, mid, and small-cap companies in emerging markets.

## Index Definitions & Disclosures

**A Note on Indices:** The volatility of an index varies greatly; all indices are unmanaged and investments cannot be made directly in an index. Indices are shown for illustrative purposes only and do not represent the performance of any specific investment. The indices selected by Sterling Capital Management to measure performance are representative of broad asset classes. Sterling Capital Management retains the right to change representative indices at any time.

The **Russell 1000® Index** measures the performance of the large-cap segment of the U.S. equity universe. It is a subset of the Russell 3000® Index and includes approximately 1,000 of the largest securities based on a combination of their market cap and current index membership. The Russell 1000® represents approximately 92% of the U.S. market. The Russell 1000® Index is constructed to provide a comprehensive and unbiased barometer for the large-cap segment and is completely reconstituted annually to ensure new and growing equities are included.

The **Russell 2000® Index** measures the performance of the small-cap segment of the U.S. equity universe. The Russell 2000® Index is a subset of the Russell 3000® Index representing approximately 10% of the total market capitalization of that index. It includes approximately 2,000 of the smallest securities based on a combination of their market cap and current index membership. The Russell 2000® is constructed to provide a comprehensive and unbiased small-cap barometer and is completely reconstituted annually to ensure larger stocks do not distort the performance and characteristics of the true small-cap opportunity set.

The **Russell 2000® Growth Index** measures the performance of growth style of investing in small cap U.S. stocks. The Growth Index contains those Russell 2000 securities with greater-than-average growth orientation.

The **Russell 2000® Value Index** measures the performance of value style of investing in small cap U.S. stocks. The Value Index contains those Russell 2000 securities with less-than-average growth orientation. Securities in the Value Index generally have lower price-to-book and price-to-earnings ratios than those in the Growth Index.

The **Russell 3000® Index** measures the performance of the 3,000 largest U.S. companies based on total market capitalization.

The **Russell 3000® Growth Index** is an unmanaged index comprised of those Russell 3000 companies with higher price-to-book ratios and higher forecasted growth values.

The **Russell 3000® Value Index** measures the performance of the broad value segment of the US equity value universe.

The **Russell 200® Value Index** measures the performance of the especially large cap segment of the US equity universe represented by stocks in the largest 200 by market cap that exhibit value characteristics.

The **Russell Midcap® Index** measures the performance of the mid-cap segment of the U.S. equity universe. The Russell Midcap® Index is a subset of the Russell 1000® Index. It includes approximately 800 of the smallest securities based on a combination of their market cap and current index membership. The Russell Midcap® Index represents approximately 31% of the total market capitalization of the Russell 1000® companies. The Russell Midcap® Index is constructed to provide a comprehensive and unbiased barometer for the mid-cap segment. The index is completely reconstituted annually to ensure larger stocks do not distort the performance and characteristics of the true mid-cap opportunity set.

The **Russell Midcap® Growth Index** measures the performance of growth styles of investing in Mid Cap U.S. stocks. The Growth Index contains those Russell Mid Cap securities with greater-than-average growth orientation.

The **Russell Midcap® Value Index** measures the performance of value style of investing in Mid Cap U.S. stocks. The Value Index contains those Russell Mid Cap securities with less-than-average growth orientation. Securities in the Value Index generally have lower price-to-book and price-to-earnings ratios than those in the Growth Index.

The **Russell Top 200® Growth Index** offers measures the performance of the especially large cap segment of the U.S. equity universe represented by stocks in the largest 200 by market cap. It includes Russell Top 200® Index companies with higher growth earning potential as defined by Russell's leading style methodology.

The **Russell Top 200® Index** is an index of the largest 200 companies in the Russell 3000 index. It is commonly used as a benchmark index for U.S.-based ultra large-cap (mega-cap) stocks with the average member commanding a market capitalization of upwards of \$200 billion.

The **S&P® 500 Index** is an unmanaged capitalization-weighted index of 500 U.S. stocks designed to measure performance of the broad domestic economy through changes in the aggregate market value of 500 stocks representing all major industries.

The **S&P Small Cap 600® Index**: The S&P SmallCap 600® Index is designed to measure the performance of the small capitalization sector of the U.S. equities market. This index consists of 600 domestic stocks chosen for market size, liquidity, (bid-asked spread, ownership, share turnover and number of no trade days) and industry group representation.

The **S&P Mid Cap 400® Index**: The S&P MidCap 400® Index is designed to measure the performance of the mid capitalization sector of the U.S. equities market. This index consists of 400 domestic stocks chosen for market size, liquidity, (bid-asked spread, ownership, share turnover and number of no trade days) and industry group representation.

The **S&P 1500**: An investable U.S. equity benchmark, the S&P Composite 1500 combines three leading indices, the S&P 500®, the S&P MidCap 400, and the S&P SmallCap 600 to cover approximately 90% of the U.S. market capitalization. It is designed for investors seeking to replicate the performance of the U.S. equity market or benchmark against a representative universe of tradable stocks.

The **Trade-Weighted U.S. Dollar Index**, also known as the broad index, is a measure of the value of the United States dollar relative to other world currencies. It is a trade weighted index that improves on the older U.S. Dollar Index by using more currencies and the updating the weights yearly.

The **Volatility Index (VIX)** is a real-time market index representing the market's expectations for volatility over the coming 30 days.

# Important Information

## Designations

The **Accredited Asset Management Specialist® (AAMS)** is a professional designation awarded by the College for Financial Planning (CFP) to financial professionals who successfully complete a self-study program, pass an exam, and agree to comply with a code of ethics. To keep the privileges associated with the designation, AAMS professionals must complete 16 hours of continuing education every two years.

The **Accredited Investment Fiduciary® (AIF®)** designation is a professional certification that demonstrates an advisor or other person serving as an investment fiduciary has met certain requirements to earn and maintain the credential. The purpose of the AIF® Designation is to assure that those responsible for managing or advising on investor assets have a fundamental understanding of the principles of fiduciary duty, the standards of conduct for acting as a fiduciary, and a process for carrying out fiduciary responsibility.

The **Certificate in Investment Performance Measurement® (CIPM)** program is a graduate-level investment performance and risk evaluation credential and is awarded by the CFA Institute, the largest global association of investment professionals. To earn the CIPM, candidates must: 1) pass two sequential examinations; 2) have at least two years of qualified professional investment experience; 3) join CIPM Association; and 4) commit to comply with the CFA Institute Bylaws and Rules of Procedure.

The **Certified Financial Planner® (CFP)** certification is a graduate-level credential awarded by the CFP Board. To earn the CFP, candidates must: 1) take the required coursework; 2) meet educational requirements; 3) pass the examination; 4) have qualifying experience; and 5) agree to adhere to the CFP Board's standards of ethics and professional conduct.

The **Certified Investment Management Analyst® (CIMA)** credential is a graduate-level investment certification and is awarded by the Investment Management Consultants Association® (IMCA) that sets global standards for the investment management consulting profession. To earn the CIMA designation, candidates must: 1) have at least three years of qualified financial experience; 2) Pass an extensive background check; 3) complete the two-step program of study; 4) pass the qualification and certification examinations; and 5) adhere to the IMCA's Ethics and other ongoing standards.

The **Chartered Mutual Fund Counselor (CMFC)** designation is for individuals who provide financial planning and investment advice related to mutual funds.

The **Certified Public Accountant Licensure (CPA)** is a graduate-level accounting license and is awarded by the American Institute of CPAs (AICPA). To earn the CPA licensure, candidates must: 1) have at least two years of public accounting experience; and 2) pass the examination. Please note, every state has its own education and experience requirements that must be met.

The **Certified Regulatory and Compliance Professional (CRCP)** designation is a graduate-level compliance certification and is awarded by the Financial Industry Regulatory Authority (FINRA). To earn the CRCP designation, candidates must: 1) pass two weeklong residential courses; 2) pass the two consecutive examinations; and 3) meet continuing education requirements.

The **Certified Treasury Professional® (CTP)** designation is recognized as the leading credential in corporate treasury worldwide and awarded by the Association for Financial Professionals® (AFP). To earn the CTP designation, candidates must: 1) pass the examination, 2) have at least two years of qualified work/education/teaching experience, and 3) meet continuing requirements.

The **Certified Trust and Fiduciary Advisor (CTFA)** designation is a professional designation offered by the American Bankers Association (ABA), which provides training and knowledge in taxes, investments, financial planning, trusts, and estates.

The **Chartered Alternative Investment Analyst® (CAIA)** charter is a graduate-level alternative investment credential awarded by the CAIA Association, a global provider of Alternative Investment education. To earn the CAIA, candidates must: 1) pass two sequential examinations.

The **Chartered Financial Analyst® (CFA)** charter is a graduate-level investment credential awarded by the CFA Institute, the largest global association of investment professionals. To earn the CFA charter, candidates must: 1) pass three sequential, six-hour examinations; 2) have at least four years of qualified professional investment experience; 3) join CFA Institute as members; and 4) commit to abide by, and annually reaffirm, their adherence to the CFA Institute Code of Ethics and Standards of Professional Conduct.

The **Chartered Financial Consultant® (ChFC)** credential was introduced in 1982 as an alternative to the CFP® mark. This designation has the same core curriculum as the CFP® designation, plus two or three additional elective courses that focus on various areas of personal financial planning. To secure the designation, applicants must have three years of full-time business experience within the preceding five years and must complete nine college-level courses, equivalent to 27 semester credit hours (9 courses).

The **Chartered Retirement Planning Counselor® (CRPC)** designation is a retirement planning credential and is awarded by the College for Financial Planning. To earn the CRPC, candidates must: 1) complete the educational program; 2) pass the final examination; 3) complete the designation application.

The **Chartered Retirement Plans Specialist (CRPS)** credential is for those who create, implement and maintain retirement plans for businesses. Unlike most other professional financial planning and advisory professional designations, the CRPS focuses on wholesale and business clients.

The **Fellow Chartered Accountant (FCA)** and **Fellow Chartered Professional Accountant (FCPA)** are designations awarded by the Chartered Professional Accountants of Ontario Council. The distinction of Fellow (FCPA) formally recognizes CPAs who have rendered exceptional service to the profession and in their communities. FCPAs must be nominated by peers in recognition of exceptional leadership, competency and stewardship.
